COMMANDANT LETTUCE

Type	COMMANDANT is a Crisphead type lettuce suited for fresh and pre-pack markets.
Maturity	55-60 days from transplant.
Plant Characteristics	Large frame with deep green colour. A plant population of between 40 000- 60 000 plants per hectare is recommended.
Features and Benefits	Resistance to Fusarium race 1 with excellent heat and tip burn tolerance.

Please note: Lettuce is extremely susceptible to fluctuations in temperature. It is advised that growers plant more than one variety per slot. Summer lettuce can, under very hot dry conditions not form a head. Growers are advised to take this into consideration when planning their lettuce growing programme.
