ESKY LETTUCE

Type	ESKY is a winter Crisphead type lettuce for fresh, processing and pre-pack markets.
Maturity	60-80 days (winter).
Plant Characteristics	A large framed lettuce with a medium green colour. A plant population of between 40 000-60 000 plants per hectare is recommended.
Features and Benefits	This cultivar shows good adaptability for mid winter plantings and is very cold tolerant. Also has resistance to Bremia:1-16,19,21,23.

Lettuce is extremely susceptible to varying climates, it is recommended that more than one variety is grown within each time slot
