

## BEAN CROP TABLE

### General Characteristics

| VARIETY   | Maturity (days from sowing) | Plant type | Plant frame     | Plant habit      | Pod length (cm) | High resistance | Intermediate resistance |
|-----------|-----------------------------|------------|-----------------|------------------|-----------------|-----------------|-------------------------|
| STAR 2000 | 55-60                       | Bush       | Large           | Moderate upright | 12 - 14         | BCMV            | Ua                      |
| STAR 2001 | 55- 60                      | Bush       | Large           | Upright          | 13 - 16         | BCMV/Ua         | -                       |
| STAR 2005 | 55-60                       | Bush       | Medium-Large    | Upright dense    | 12 - 15         | BCMV            | Ua/Psp                  |
| STAR 2052 | 55-60                       | Bush       | Medium-Large    | Upright          | 13 - 16         | BCMV/Ua         | -                       |
| STAR 2053 | 55-60                       | Bush       | Medium-Large    | Upright          | 13 -            | BCMV            | Ua/Psp                  |
| STAR 2054 | 55-60                       | Bush       | Medium-Large    | Upright          | 12 - 14         | BCMV/Ua         | Psp                     |
| STAR 2006 | 55-60                       | Bush       | Medium- Compact | Upright          | 13-15           | BCMV/Ua         | Psp                     |
| STAR 2007 | 55-60                       | Bush       | Medium          | Upright          | 13-15           | BCMV/Ua         | Psp                     |

#### DISEASE IDENTIFICATION KEY:

*BCMV - Bean Common Mosaic Virus*

*Psp - Halo Blight ; Ua - Rust*
