UTILIZATION

F = Fresh Market	F	F	F	F	F	F	F	F
PP = Pre Pack	PP	PP				PP	PP	PP
Comments	"An indeterminate, short cycled greenhouse variety with TYLCV resistance."	An intermediate large fruit, multivirus resistant variety for winter production	"An indeterminate large fruit variety with TYLCV resistance for summer production."	"Strong plant produces large fruit.Suitable for cool season production."	"Very firm fruit on strong compact plants with good leaf disease resistance."	Very high yields with excellent quality and need pruning	Very high yield potential, fruits are of excellent quality. Plant could possibly grow too vigorous if too much Nitrogen is applied in the initial stages. A very high level of resistance to Powdery Mildew has been observed under field conditions.	Very high yield potential, fruits are very attractive. Plant could possibly grow too vigorous if too much Nitrogen is applied in the initial stages. A very high level of resistance to Powdery Mildew has been observed under field conditions.

SEEDS OF SUCCESS

TOMATO-FRESH MARKET INDETERMINATE SALADETTE

CHARACTERISTICS	STAR 9081	STAR 9082	SERENITY
Days to maturity (transplant)	80-85	75-80	80 - 85
Plant habit	Indeterminate	Indeterminate	Indeterminate
Vigour	Medium	Strong	Strong
Fruit mass (g)	140-160	120-140	140-160
Shape	Tapered blocky	Blocky cylindrical	Tapered blocky
Firmness (1-Good / 9-Poor)	2	2	2
Green shoulder	Absent	Absent	Present
Attachment	Jointed	Jointed	Jointed
Bearing period (1-Long / 9-Short)	2	2	2

DISEASE RESISTANCE

High resistance	Va:1/Vd:1/Fol:2/TMV	Va:1/Vd:1/Fol:2/TMV	Va, Fol 1&2, TMV
Intermediate resistance	Ma/Mi/Mj	Ma/Mi/Mj	Ma, Mi, Mj, TSWV, Pi

UTILIZATION

F = Fresh Market	F	F	F
PP = Pre Pack	PP	PP	F
Comments	Very high quality large and firm fruit with an extended bearing period.	Greenhouse or open field variety with very high quality, thick fruit walls and medium size.	Very large fruit on a vigorous plant with TSWV resistance

TOMATO-NOVELTIES

CHARACTERISTICS	LITTLE WONDER	SAN MAURICE	SAMANTHA	SURITHA
Days to maturity (transplant)	75 - 80	75 - 80	75 - 80	70 - 80
Plant habit	Determinate	Indeterminate	Indeterminate	Indeterminate
Vigour	Strong	Strong	Very strong	Very strong
Fruit mass (g)	8 - 12	18 - 20	14 - 18	10 - 12
Shape	Oval	Cylindrical	Globe	Oval
Firmness (1-Good / 9-Poor)	2	2	2	2
Green shoulder	Present	Present	Absent	Present
Attachment	Jointed	Jointed	Jointed	Jointed
Bearing period (1-Long / 9-Short)	5	1	1	1

DISEASE RESISTANCE

H.R* (High/Standard Resistance)	Fol 1	Va, Vd, Fol 2	Va, Vd, Fol 1, Fol 2, TMV	Va, Vd, Fol 2
I.R* (Moderate/Intermediate Resistance)	As	-	Ma, Mi, Mj, Lt, Pst	-

UTILIZATION

PP = Pre Pack	PP	PP	PP	PP
Comments	Very high yield on a determinate plant habit.	Mini San Marzanno type with unique pointy fruit shape.	Uniform Ripening with excellent colour and taste.	Unique taste and acceptable shape
